

California Society for Healthcare Engineering, Inc.

Central Valley CSHE Meeting August 20, 2015

Meeting Title: Where OSHPD the Joint Commission and ASHRAE Collide on the issue of Room Pressures and Air Exchange Rates.

Time: Networking at 5:30pm and Dinner starts 6:00pm

Facility Location: St. Joseph Medical Center 1805 N. California Street Stockton

Meeting Room Location: Cleveland Classroom Building, Please enter through employee parking North end of California Street

Dinner Host: ATI Carlos Roque

Presenter: John Martinelli Forensic Analytical

TOPIC: This brief interactive discussion will cover the current focus on room pressures and air exchange rates by the Joint Commission, provide a comparative analysis of the design guidelines and requirements in the California Mechanical Code, the 2010 FGI Guidelines for Design and Construction of Healthcare Facilities and the ANSI/ASHRAE 170. We focus in on some key technical requirements of each design guidance document or standard as well as how to reference the standards for future questions.
