focused learning
specifically for water &
wastewater utility decision
makers!**

LEADERSHIP SUMMIT

Focus | Perspective | Empowerment

Maintaining a good quality of life for Indiana citizens is an ongoing objective of local community leaders. Being able to make educated decisions leads to the utility's ability to provide a safe supply of drinking water and proper wastewater disposal for its customers. Sound business practices for operation and proper management of a utility are essential in influencing long-term sustainability of the utility.

Leadership Summit will equip you with the skills necessary to achieve these goals and to lead your utility along the path to peak performance.
