

Working Together to Envision Your Future with the Nebraska Association for Home Healthcare and Hospice

The Nebraska Association for Home Healthcare and Hospice is pleased to invite you to participate in our Industry Partner Program. Your support and sponsorships help the association provide education, information and services to our members.

The Nebraska Association for Home Healthcare and Hospice Partner Program offers a selection of ways to place your services, products or resources in front of home care and hospice providers. We have four levels of sponsorship available: Platinum, Gold, Silver and Bronze.

As a Nebraska Association for Home Healthcare and Hospice Partner, you'll have the unique opportunity to participate in our well-attended events. We've developed four partner levels with different pricing and benefit packages, so you can choose the level of support that best fits your budget and business objectives. All four packages provide a networking opportunity within the Nebraska home care and hospice community that you won't find anywhere else. Each gives you the opportunity for a significant return on your investment.

Investing in the Nebraska Association for Home Healthcare and Hospice Partner Program is investing in your business. It's the most cost-efficient way to reach a large group of home care decision makers – one that's proven again and again that they support the vendors who support our association.

Join us in this exciting program and discover how powerful this partnership can be. Diamond Level – Customized Partnership Support options are available, including overall event sponsorships that offer an opportunity for the sponsor to make a presentation to meeting attendees. Contact the Nebraska Association for Home Healthcare and Hospice office to discuss event sponsorship opportunities.
