

## Member Spotlight

Godfrey's Feed has been member of GAC since 1991 and a staple of agribusiness in Madison, Georgia since 1879. The building and company that started out as a cotton warehouse has now grown into one of the premier feed

sellers in the state. Godfrey's feed is a family-owned business that has been passed down through six generations, starting with J.E. Godfrey and continuing today with Whitey and Weyman Hunt. They pride themselves on great service and high-quality products that include premium feeds for nearly all types of livestock, horses, as well as some wildlife such as deer. In addition to supplying bulk feed directly to farmers, Godfrey's feed can be found by the bag in many dealer locations across Georgia as well as Alabama, South Carolina, North Carolina, and Florida. All of the feed that holds the Godfrey's label is mixed processed and packaged in the original warehouse in downtown Madison. We're thankful for longtime, supportive members of GAC!
