

Due to the rapidly evolving situation with the COVID-19 pandemic, our board has decided to cancel the 2020 Spring Conference in French Lick (which includes the IFA water loss training and regional meeting). *Any hotel rooms associated with our group rooming block will also be cancelled immediately.* We feel that we cannot, in good conscience, continue with an event that will bring together over 1,000 people from our industry who are vital to their communities and risk your welfare or that of your communities.

We realize this will impact training hours you may have been counting on, and will do our best to provide opportunities for you to obtain your continuing education hours. You may consider our vast [library of on-line training courses](#), which we could apply your conference registration fee towards.

This is not a decision that we have undertaken lightly. As a not-for-profit organization the Alliance relies heavily on revenue from events like our conferences and one day trainings to support our efforts throughout the year.

We will provide refunds of registration fees. If you would like to offer your registration fee as a donation please contact us by April 30th, 2020. Because of this deadline, please be patient with us as it will take time to process all of this in our system.
