NJ Water Association
Richard Howlett
Executive Director

Dear Mr. Howlett,

I wanted to thank the NJ Water Association for providing assistance to small water and wastewater utilities. Recently we had Mr. Thomas Cantwell televise a couple of wastewater main lines to check for any damage. Mr. Cantwell was very helpful and professional.

Also a few months prior, Mr. Paul Britt had located a 10" plastic water main using the underground locating equipment. Mr. Britt was very helpful.

Both of these services, in addition to the training NJ Water Association provides helps the smaller utilities.

Thank you for your help.

Sincerely,

Municipal Utilities
Authority
