To Our Members and Friends,

Starting January 1, 2023, the New Jersey Water Association (NJWA) will launch a new membership, training, and data management system.

We're excited about this new system, as it will allow us to provide better member services, simplify course registration, and better track membership and training data.

In addition, future enhancements will include an app that can be used to easily register for courses, search our associate member database and access a digital membership card.

Our membership structure and levels will remain the same: Systems Members, Individual Members, and Associate Members.

NJWA System membership includes one primary contact. Additional system employees may be added as NJWA Individual Members under the system.

NJWA Individual Membership includes persons employed by a NJWA Water or Wastewater System Member, or persons retired or employed by a system or business that is Not a member NJWA.

I'd like you to know that membership in the New Jersey Water Association will be more important than ever. Members will have access to member-exclusive training sessions, our app, advance notice of events and discounts on services.

We look forward to providing the expanded capacity and conveniences that will be available to you, and we look forward to seeing you in the New Year.

Our best to you, always.

A handwritten signature in black ink that reads "Richard P. Howlett". The signature is written in a cursive style with a large, prominent "R" and "H".

Richard P. Howlett  
Executive Director  
New Jersey Water Association
