# Building Effective **Teams**

Washington Fire Chiefs Leadership Conference

By Terri Patton

# What makes a team ineffective?

The Effective Leader thinks systemically. He is aware of the system patterns at play, as well as the emotional tugs and pulls lying underneath the issues.

The Effective Leader includes herself as an important player in cocreating the patterns at work in the system.

### Self-Awareness

- "Those of us who readily embrace leadership...tend toward extroversion, which often leads to ignoring what is happening inside ourselves. If we have any sort of inner life, we 'compartmentalize' it, walling it off from our public work."
- "...if people skimp on their inner work, their outer work will suffer as well..."
